# Mayur Kalwar

B. Tech Student

🌙 +91 99309 48453 💌 mayurkalwar0251@gmail.com 🛗 linkedin.com/in/mayur-kalwar 👩 github.com/MayurKalwar0251

Enthusiastic and dedicated student with a strong academic background in Technology. Demonstrates a keen interest in Development and a proven ability to quickly learn and adapt to new challenges. Eager to translate theoretical knowledge into practical applications and gain hands-on experience in software engineering.

### Education

## Dwarkadesh Jivanlal College of Engineering

Expected 2026

Bachelor of Technology in Computer Engineering

till Sem4 - 8.20

## Sardar Vallabhbhai Patel Vividhlakshi Vidylaya

March 2020

Maharashtra State Board

84.60%

#### Technical Skills

Languages: Python, JavaScript, HTML, CSS, Java, C++, C, Dart, Kotlin, SQL

Technologies/Libraries: MERN Stack, React.js, Next.js, Android Development (Kotlin), Flutter, Git, GitHub

Blockchain: Ethereum, Solidity, MetaMask, Smart Contracts, Hardhat

Proficient in full-stack development, with strengths in JavaScript, Python, and modern web and blockchain technologies, and a solid foundation in data structures and algorithms.

### Internship

## Vighnotech Solutions

View

Full-stack developer for a CRM application focused on college admissions. Worked on data management, UI design, and backend integration, enhancing skills in CRM and full-stack development.

## AICTE – Google Android Developer Virtual Internship

Developed a chat application like WhatsApp in Kotlin, implementing real-time messaging, user authentication, and database integration. Enhanced proficiency in Android development and Kotlin programming.

### Certifications/Courses

• Udemy: Android 14 and Kotlin Development

View

• Udemy: The Complete 2024 Web Development Bootcamp

## **Projects**

## E-commerce Website | MERN Stack

GitHub

Developed an e-commerce website for shopping watches with features like user authentication, product listings, an admin panel, and a secure payment gateway. Demonstrated strong skills in full-stack development using the MERN stack.

#### NFT Marketplace | MERN Stack, Solidity for Smart Contracts

**GitHub** 

Created a full-stack NFT marketplace using the MERN stack and Solidity for smart contract functionality. Enabled users to create, buy, and sell NFTs securely, showcasing expertise in blockchain and full-stack web development.

### Achievements

• Google Developer Badges for Android Developer

<u>View</u>

• Leetcode problem solving skills
